What participants have to say about the Family Connections® program.

*“The **Family Connections**® course gave us the skill to understand our daughter’s illness. With that knowledge, came understanding and compassion.*

Without the opportunity to attend this course, we are sure that our daughter’s life would have been much more chaotic and destructive. At the same time, our family relationship may have fragmented in the ensuing despair. However, now we are empowered to manage the effects of BPD with strategy, knowledge, and patience.”

“Years ago, I wrote: ‘I know I’m not alone in this. I just wish we mothers could connect somehow.’ Well, I have found some other mothers. We found a course for family members. At the very first meeting, as each family shared their stories, my husband and I caught each other’s eye and nodded in recognition. Each week, we had course work and sharing. We laughed and we cried. It has been a godsend. Between the course and the community, I feel much stronger and better able to be an effective parent to our daughter.”

FAMILY CONNECTIONS®

A 12-week program designed to provide the adult family members and spouses of individuals with emotion dysregulation or **Borderline Personality Disorder** with knowledge and skills for their own well-being and for better understanding their loved one.

The program in Ottawa is offered by the Ottawa Network for Borderline Personality Disorder (ON-BPD).

OTTAWA NETWORK FOR BORDERLINE PERSONALITY DISORDER

Ottawa Network for Borderline Personality Disorder | Family Connections Program

WHAT | The Family Connections® program is an adaptation of Dialectical Behavior Therapy (DBT), an approach that has been shown to help those with BPD, typically led by professionals in medical institutions. The Family Connections® program brings the skills and education into the community and is led by trained volunteers who also have family members with BPD.

Developed by Dr. Alan Fruzzetti and Dr. Perry Hoffman, the program provides current information and research on BPD, teaches coping skills based on Dialectical Behavior Therapy (DBT) and helps to develop a support network.

WHO ATTENDS | Family Connections® is for parents, spouses, and other adult family members of someone with Borderline Personality Disorder. To date, the program has been conducted in English. ON-BPD plans to offer the Family Connections® course in French in April to June 2016.

WHO LEADS | The leaders are volunteers who have experienced life with a loved one with BPD and received NEA.BPD training on leading the program.

WHY | To help participants understand the illness, learn skills, and develop a support network.

WHERE | Sessions are typically held at a central location in downtown Ottawa.

WHEN | Meetings are held on Saturday mornings from 9:30 to noon. Sessions in English begin in January and September. A Family Connections course in French is planned to begin in April 2016.

HOW | To apply to take the course, contact us at info@on-bpd.ca.

The format of the sessions allows Family Connections® participants to obtain information, acquire and practice the application of skills, and enjoy an open forum for discussion.

The program combines the real life experiences and needs of families of persons with BPD with the expertise of more than two decades of professional work with families.

Group leaders, who are volunteers and family members themselves, have extensive personal experience in this area and have completed the training needed to disseminate and maintain the integrity of the program content.
